

Coefplot based on matrices – some examples

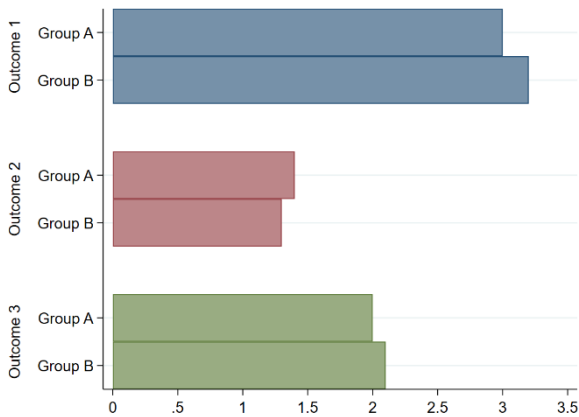

Option 1a (One color for each coefficient, with "groups")

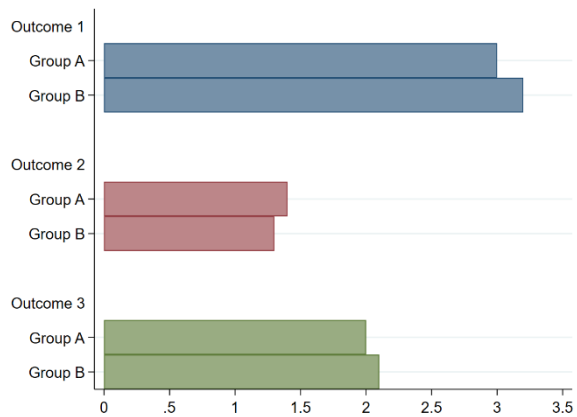

Option 1b (One color for each coefficient, with "headings")

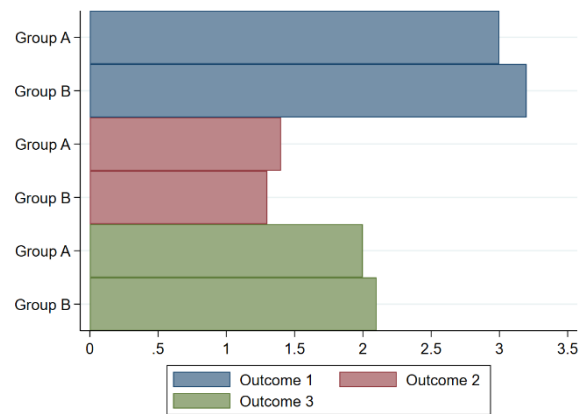

Option 2a (One color for each outcome, with "groups")

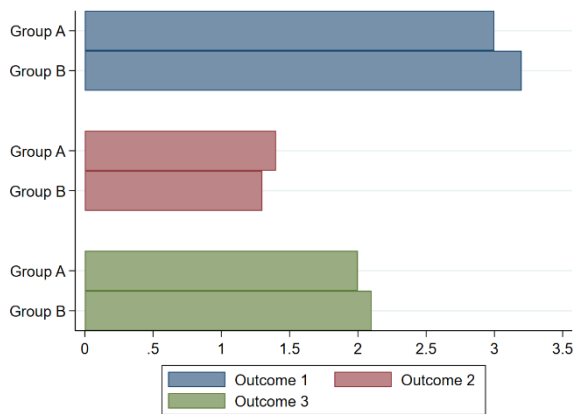

Option 2b (One color for each outcome, with "headings")

Option 3a (One color for each outcome, legend)

Option 3b (One color for each outcome, legend and gaps)

Option 4 (One color for each group)
